Enhances structural functionality and appeal

Considered by many to be the finest Dutch Door on the market today, CannonBall's Country Stable Dutch Door features a 7-ply, 3/4" thick marine-grade plywood core with laminated steel skins and powder coated extruded aluminum edging and crossbucks.

FEATURES

- Heavy duty 16-gauge galvanized power coated frame.
- Dutch doors when ordered with a frame, require a rough opening of 48-7/8" wide x 87" high.
- Dutch doors ordered without frame require a finished opening of 48-5/8" wide x 87" high.
- Variety of 29 gauge steel inset colors.
- Includes (4) heavy duty 8" T-hinges.
- Factory preassembled hinges to the frame.
- Doors come complete with handle and latch catch for open positions. Barrel bolt latches to secure top and bottom panel together.
- Color matched hardware available.
- 1/2 Dutch Door (Bale Door) available.
- Door size is 4' x 7'.

3000-Series Country Stable Dutch Door.
