High-end interior looks

CannonBall's Urban Flat Track Sliding Door System provides an upscale appearance, classic functionality and high aesthetic appeal to any home, office or work space. This versatile system combines rustic charm with high tech components for a product suitable for a variety of design styles.

FEATURES

- Ideal for both interior and exterior use, this steel Flat Track System fits a variety of door sizes up to 8 feet wide - and can support single or double split-sliding door panels up to 400 lbs. per trolley pair.
- Clean, simple lines provide decorative appeal to the System's straightforward usage.
- Track sizes - traditionally set at 2x the door width - are available in configurations up to 16 feet long to accommodate all your interior design needs.
- Track, trolleys and system hardware components come in high gloss black or matte black finishes.
- Keep your door flush to interior walls with double U-Keepers for bracing - or choose a U-Keeper, Stay Roller & Channel combination for smooth rolling performance.
- System kits include a specified steel track length, 2 steel trolleys, 2 door stops, required mounting hardware and your choice of door bracing (double U-Keepers or the U-Keeper / Stay Roller / Channel combo).
- Contact CannonBall Inside Sales for additional details on wooden door panel availability, options and construction timing.

Professional-grade quality and styling

Classic Round Track Sliding Door Systems combine the durable with the decorative to meet your interior door project needs. Created with high-quality steel, a gloss black powder coat finish and easy installation components, this system delivers looks that last.

FEATURES

- Galvanized 14-gauge steel provides strength, stability and rust protection.
- The factory riveted mounting strip offers a quick, easy installation.
- Paired with the Delrin wheel trolleys, this sliding door system can support door panels up to 600 lbs per trolley pair.
- Typically paired with adjustable strap trolleys with a matching finish, any round track trolley style is compatible with this track for additional options in style.
- Available in a variety of full kits with all components needed to fit doors up to 8 feet wide.
- Kits include track, 2 trolleys, 1 U-keeper and the option of either a concealed stay roller with channel or an additional U-keeper.
- Suits a variety of styles with the option of a high gloss or matte black finish on all components.
- With a high gloss black finish, the track provides a high end look that will last for years.
- Able to accommodate a single panel sliding door, or a double panel split sliding system.
- Full door panels are available to complete the door.
- Door panels can be unfinished, aged or have a poly coating.
- Door panels are available with or without a crossbuck decoration.
