1200 Series Builder's Choice Window

welded vinyl windows

1200 Series Builder's Choice Window

MANUFACTURING:

1200 Series vinyl windows are manufactured to CannonBall:HNP specifications in a state-of-the-art, award winning manufacturing facility. This is an ISO 9001 certified facility being operated by a Top 100 window manufacturing company with over 15 years experience producing residential, commercial, heavy commercial, and architectural windows.

WINDOW FAMILY:

The standard configuration stocked at CannonBall:HNP features an integral J-channel, clear standard 7/8" IG, nailing fins, and half screen in various sizes of horizontal slider. Other configurations are available including single hung, picture, 3-lite slider, twinned single hungs, circle top, and architectural shapes. These units can also be ordered without a J-channel, as well as with an optional snap-in J-channel, on a special order basis.

PACKAGING:

The standard packaging of 1200 Series windows is cornered and shrink wrapped. These units can also be ordered cartoned with or without the shrink wrap if required. Bulk packs of stock units are also available with individual packaging for each window, with the quantity of windows packaged in a Gaylord for easier shipping and inventory management. Alternative packaging does not effect lead times.

WINDOWS COMPARISON

1200 SERIES	COMPETITION
Full Welded Construction	Full Welded Construction
Integral Nailing fins	Integral Nailing Fins
Fiberglass Screens Included	Fiberglass Screens Included
✓ 7/8" IG - improved efficiency and reduced sound transmission	Inferior 5/8" or 3/4" IG
✓ 13/16" Deep J-Channel - room for 3/4" metal profiles	Less Than 3/4" Deep J-Channel - have to bend panels to fit
✓ Integral J, Snap-in J, or no J in same window family	Integral only, or snap-in only - fewer available configurations
✓ One-year Stress Crack Warranty	No Warranty for Stress Cracks
✓ Windows shipped in protective packaging on skids - easy handling and less breakage	Windows shipped bulk with minimal packaging - must be manually unloaded and sorted
✓ Available as part of your regular CannonBall:HNP deliveries	Delivered separately - not all locations serviced

LEAD TIMES:

Standard configuration windows in stock sizes (3030, 3040, 4020, 4030, and 4040) are available on a standard 1-2 week lead time in Gaylord and each quantities. All other styles and configurations are available on a 3 week lead time. As with most CannonBall:HNP products, other sizes and configurations can be made available for standard lead times in Gaylord order quantities. For specialized stocking programs where the customer can demonstrate a history of purchasing specific configurations and sizes, it will typically take 3 weeks to set-up the program and provide the first order, after which the specialized stock will be available on a standard 1-2 week lead time.

WARRANTY:

CannonBall:HNP warrants to the original purchaser that each 1200 Series window will be free from defects in material and workmanship for a period of five years following proper installation. Stress cracks caused by the natural expansion and contraction of the vinyl frame shall be warranted for a period of one year. The warranty shall not apply to any product which has been subjected to abuse, misuse or accidents. This warranty shall be null and void if the product is not installed and maintained pursuant to CannonBall:HNP'S installation specifications and instructions. Further, this warranty does not extend to normal wear and tear.
